

Cognition Therapeutics to Present Corporate and Clinical Update at H.C. Wainwright Global Life Sciences Conference

March 3, 2021

New York, March 03, 2021 — [Cognition Therapeutics, Inc.](#), a clinical stage neuroscience company developing drugs that treat neurodegenerative disorders by regulating cellular damage response pathways, reported that [Lisa Ricciardi and James O'Brien](#), Cognition's chief executive and chief financial officers, would be making a company presentation at the annual H.C. Wainwright Global Life Sciences Conference.

Ms. Ricciardi and Mr. O'Brien will provide an update on the company's recent corporate and clinical accomplishments as well as plans underway to evolve the business through capital acquisition and pipeline progress. In addition, the company will be available to meet with current and prospective investors through the conference's one-on-one platform. An on-demand company presentation will be available beginning at 7:00am ET on March 9, 2021 and will be accessible from Cognition's [Events](#) webpage.

About Cognition Therapeutics, Inc.

Cognition Therapeutics, Inc. has discovered and is developing a pipeline of novel, disease modifying, oral drug candidates to treat a broad array of neurodegenerative and neuro-ophthalmic disorders. Our pipeline compounds uniquely target the sigma-2 (σ -2) receptor, a key regulator of the cellular damage response. CT1812, our lead product candidate, is being assessed in a comprehensive clinical program for Alzheimer's disease, including a 540-person Phase 2 study in collaboration with ACTC and supported by a competitive grant from the National Institute on Aging. Additional information about Cognition and its product candidates may be found online at www.cogrx.com.

Cautionary Statement Regarding Forward Looking Statements

This press release contains forward-looking statement, including those concerning the development and commercialization of Cognition Therapeutics' product candidates and pipeline, their potential benefits and the Company's expectations regarding its prospects. Forward-looking statements are subject to risks, assumptions and uncertainties that could cause actual future results to differ materially from such statements. These statements are based on information that is available as of date of this press release, and except as required by law, we undertake no obligation to update any such statements.

This press release contains references to CT1812, an investigational product. Use of CT1812 has not been approved by the FDA.
